REPAIR

REPAIR

STEP THREE: REPAIR

Wrinkles, fine lines, discoloration, and dull, dry, flaky skin are the result of three facets of accelerated aging:

- 1) surface damage from free-radical induced reactions;
- 2) excessive loss of natural moisture from damaged skin; and
- 3) the breakdown of the skin's natural support structure of collagen and elastin.

Working together day and night, Enfuselle's extraordinary treatment formulas boost your skin's natural ability to repair its own appearance.

- **Time Repair A.M.® SPF 15** is a 5-in-1 treatment that meets all your skin's daytime needs for renewal, recovery, moisturization, nourishment, and protection.
- **C+E Repair P.M.™** patent-pending formula delivers high levels of pure, derma-available vitamins C and E to visibly firm skin without irritation.
- **Eye Treatment.** Pure vitamin C and exclusive anti-aging botanicals soften the look of under-eye circles and diminish the look of puffiness and fine lines.

THE SHAKLEE UNCONDITIONAL GUARANTEE

If for any reason a Shaklee product is not satisfactory, return it to your Shaklee Independent Distributor or Shaklee Corporation, for exchange or full refund.

TIME REPAIR A.M. SPF 15
2 fl oz — All Skin Types — #32506
C+E REPAIR P.M.
1 oz — All Skin Types — #32512
EYE TREATMENT
0.5 fl oz — All Skin Types — #32510

CLINICAL PROOF

Extensive independent clinical testing has demonstrated:

Time Repair A.M.® SPF 15

- 24% reduction in the appearance of fine lines in 2 weeks*
- 421% reduction in the appearance of wrinkles in 4 weeks*
- 104% increase in elasticity in 8 weeks*

C+E Repair P.M.™

- 88% reduction in the appearance of fine lines in 2 weeks*
- 154% increase in skin elasticity and firmness in 4 weeks*
- 104% reduction in the appearance of wrinkles in 8 weeks*

Eye Treatment

- Makes fine lines and wrinkles less noticeable
- Helps reduce puffiness and increases skin firmness
- Ophthalmologist tested
- Safe for use by contact lens wearers

HOW DOES TIME REPAIR A.M. SPF 15 WORK?

Finally, a 5-in-1 treatment that meets all your skin's daytime needs!

- 1) **RENEWAL: Beech Tree Bud Extract** gently encourages natural cell turnover for the action of an AHA (alpha-hydroxy acid) without irritation. The result is measurably clearer, brighter, smoother skin.
- 2) **RECOVERY:** Soothes irritations as it evens skin tone and fades blotchy discolorations with a **unique botanical blend** that features extracts of mulberry, strawberry geranium, grape, licorice, and scutellaria. Think of them as “phyto-brighteners” that recapture the glow of younger-looking skin.
- 3) **MOISTURIZATION:** Fine lines and wrinkles are visibly diminished as skin is intensely moisturized, and the skin's natural ability to retain its own moisture is enhanced.
- 4) **NOURISHMENT: Patented Vital Repair+™** (U.S. Patent No. 6,036,946) nourishes and protects with pure, derma-available antioxidant vitamins and more.
- 5) **PROTECTION: Non-irritating, broad spectrum SPF system** protects against future photoaging. Especially formulated for sensitive skin. Oil free, quickly absorbed, and never sticky. **Additional vitamin C** also supports skin's natural defenses against UV-induced collagen breakdown.

Enfuselle products have been clinically tested at the independent laboratories of the California Skin Research Institute for safety and efficacy.

*** CLIMATE CHANGES VISIBLY ACCELERATE AGING...UNTIL ENFUSELLE STOPS THE CLOCK!** When Enfuselle clinical tests used bio-instruments to objectively measure the depth of fine lines and wrinkles, an astonishing result emerged, in part because of rapidly changing climate conditions: Where no skin care or cosmetic products were used (one side of the test subjects' faces), the visible signs of aging became measurably deeper, while the skin treated with Enfuselle products steadily improved. By the end of 4 weeks, the difference between the treated and untreated skin was as great as 400%!

NOTE: If you have suffered grass allergies so severe that you have needed to consult with allergy specialists, be cautious when using Time Repair A.M. SPF 15 for the first time. Why? A very small number of people who have extreme allergies to certain grasses may experience skin irritation or itchy or watery eyes after using Time Repair A.M. SPF 15 due to its botanical extracts. Test by applying the product only to your jawline for a day or two. If unwanted conditions persist for several days, discontinue use.

SUN ALERT

The sun causes skin damage. Regular use of sunscreens over the years may reduce the chance of skin damage, some types of skin cancer, and other harmful effects due to the sun.

THREE STEPS THREE MINUTES IN THE MORNING

STEPS ONE & TWO:

- **Cleanse and neutralize your skin with the Enfuselle products for your skin type.** Allow skin to air-dry naturally.

STEP THREE:

- **First, dot Eye Treatment lightly around the eye area** — being careful not to pull or stretch the delicate skin around eyes, gently pat Eye Treatment into the skin until absorbed.
- **Next, smooth Time Repair A.M.® SPF 15 onto face and neck** — using upward and outward strokes, gently massage into skin until completely absorbed. *Avoid eye area.*

HOW DOES C+E REPAIR P.M. WORK?

Experience visibly firmer skin without irritation! The secret? Exceptionally high levels of pure, derma-available vitamin C and vitamin E in the perfect ratio to support your skin's natural defenses and boost softness and resiliency.

Vitamin C and vitamin E are partners in antioxidant protection. Vitamin C is water-soluble and is part of the body's defense system for the watery portions of skin cells and tissues. Oil-soluble vitamin E is the first line of defense for the body's lipids — such as the natural oils in skin cells and sebum. But the partnership extends even further: research has shown that when vitamin C is present in sufficient quantities, it can actually help regenerate oxidized vitamin E to continue its fight against free radicals — the ideal ratio of vitamin C to E is 2-to-1.

That's why Enfuselle C+E Repair P.M.™ contains:

- **10% pure, derma-available vitamin C in a stabilized, completely water-free, skin-activated formula.** Research shows that vitamin C supports skin's natural defenses against UV-induced collagen breakdown, visibly improving firmness and resiliency. Vitamin C is also known for its ability to even skin tone and color and reduce the appearance of blotchy skin discolorations and dark spots.
- **5% pure vitamin E** — Intensely skin-softening to create a silky texture that has to be seen — and touched — to be believed. Research shows that vitamin E supports and protects the skin's natural oil/moisture barrier, improving skin's ability to retain moisture for a more youthful appearance.

WHY IS C+E WATER-FREE?

The vitamin C in many “vitamin” skin care products tends to oxidize (causing a brown discoloration of the product) while it's still in the package. Water-soluble vitamin C will react with the ingredients in the formula itself, and this oxidation is accelerated if it comes into contact with air. C+E Repair P.M. features a patent-pending WATER-FREE formula that releases its nourishing benefits only when it comes in contact with the naturally occurring moisture in your skin.

NOTE: Some people experience a mild tingling sensation after applying C+E Repair P.M. This feeling indicates that the pure, derma-available vitamin C is penetrating the skin and beginning to confer its unique benefits. Using caution, and being sure to avoid the eye area, continue to use the product. Most people find that their skin adjusts after just a few days and the tingling sensation disappears. If discomfort continues for longer than a week, discontinue use.

THREE STEPS THREE MINUTES IN THE EVENING

STEPS ONE & TWO:

- Cleanse and neutralize your skin with the Enfuselle products for your skin type.

STEP THREE:

- First, dot **Eye Treatment** lightly around the eye area — being careful not to pull or stretch the delicate skin around eyes, gently pat Eye Treatment into the skin until absorbed.
- Next, dot **C+E Repair P.M.**™ over face and neck — massage gently into skin until completely absorbed.

HOW DOES EYE TREATMENT WORK?

The fragile skin around the eyes is often the first to show crinkly, dry lines and other unsightly flaws. The solution is special protection and moisture replenishment to ease the visible signs of fatigue, stress, and premature aging. This concentrated, uplifting formula provides a triple-benefit — lines and wrinkles seem to disappear and puffiness is diminished. The look of youthful firmness and clarity is restored and protected against future damage. Exclusive anti-aging nourishers and botanicals include:

- **Patented Vital Repair+**™. (U.S. Patent No. 6,036,946)
- **Beech Tree Bud Extract.** (See *Time Repair A.M.*® SPF 15)
- **Additional pro-vitamin B₅** — Improves delicate skin's suppleness and elasticity
- **Safe for contact lens wearers.**
- **Ophthalmologist tested.**
