Mary has known Albert Uribe for 15 years and Naren Renz is her son.

The **ProSanté** hair care system was created by a team of research scientists on the campus of Stanford University and funded by the Shaklee Corporation. Released for sale in 2002, **ProSanté** has been clinically proven and field-tested with remarkable results! (See Clinical Studies table)

| Independent clinical studies have shown the following results with consistent use of the ProSanté system of products. | 30 Days | 60 Days | 90 Days |
|---|---------|---------|---------|
| Reduction of hair loss during combing | 11% | 54% | 65% |
| Decrease in the number of broken hairs | 37% | 61% | 73% |
| Percentage of subjects that noted an increase in the thickness of their hair | 46% | 52% | 61% |

Here's what people are saying:

*A friend had developed problems with thinning, balding areas and decided to have a hair transplant. Much to his dismay, it did not take. Then he started testing the **ProSanté** product, especially focusing on the **Nourishing Scalp Treatment**. The transplanted hair started growing like crazy! –Lorri Kreuscher*

*For the past five years, I've been steadily losing my hair, with strands being removed as I comb it. In August 2002, I was introduced to **ProSanté** by Shaklee and after reading about its clinical research, I decided to try the system...After about a month of using it, my wife observed that my bald spot was disappearing. Today, some six weeks after starting to use **ProSanté**, my bald spot has grown over! It's totally covered with new-growth hair. – Noel Gayle, Oshawa, Ontario*

*My hair is color treated and very fine (I have a thyroid condition which affects my hair texture.) When I received the products, I began using them pretty regularly...The **ProSanté Purifying Shampoo** took all of the mousse, hairspray and wax buildup off of my hair, leaving it squeaking clean but not stripped and dried out...My hair felt thicker and had more volume. For a person with fine hair, this is a wonderful benefit. I cannot say enough about just this one product.*

*Now here's the best part...I was shampooing my hair one morning and pulled some wet hair down on my forehead. There in the temple/forehead area were 1-inch hairs—lots of them in a row! Since hair grows ¼ to ½ inch per month, any new hair coming in since I started using **ProSanté** should have been about 1 inch long! My hair is so light that I could not see the new growth when my hair was dry. – Linda Mann*

*I use the **ProSanté Finishing Spray** instead of my usual gel/mousse. It helps style my hair even better than gel. Most hairsprays make my hair feel dry and breakable. The spray was totally different from anything I've ever used! –Jody*

*As a hairdresser, I have found the ProSanté products much easier on my hands. My hair was also damaged from coloring it so much. This is what I did, with marvelous results: I washed it with the **ProSanté** shampoo, towel dried my hair, and then applied the **ProSanté Replenishing Conditioner**. I put on a shower cap, wrapped a towel around my head and went to bed. After doing this several times, my hair is wonderfully repaired! –Marjorie*

*My son has been using the **ProSanté System** since it came out in October 2002. He's got his 3rd new hairline! –Angie Amezcua*
