

For Vegetarians

Shaklee's policy is to avoid using animal-derived ingredients whenever possible. In order to meet quality standards and ensure product efficacy, however, we sometimes have no choice but to utilize animal-sourced ingredients. For example, capsules used for our encapsulated products are derived from purified bovine and porcine collagen. Ingredients within capsules do not contain animal-derived ingredients, except for Joint Health Complex, which contains glucosamine from crustaceans, and Essential Omega-3, which contains fish oil.

A minute amount of gelatin is present in Scientifically Advanced Vita-Lea, Scientifically Advanced Chewable Vita-Lea for Children, Vita-Lea Ocean Wonders, Chewable Cal Mag Plus and Super Cal Mag Plus to protect the potency of vitamins A and/or D during the tableting process. As a matter of information, the amount of gelatin in these products is so small that Star-K, the organization that certifies our Kosher products, has declared that they may be consumed under "Betal Beshishim." According to this Jewish law, if a minute amount of non-Kosher food mixes with Kosher ingredients the food is permitted for the Jewish Kosher consumer.

Many vegetarians use Shaklee nutritional products successfully, the selection, of which, depends upon their level of commitment to a vegetarian diet. Vegetarianism ranges from vegans, those who avoid all foods of animal origin, to semi-vegetarians, who consume animal and dairy products but not red meat. The following Shaklee nutritional products contain no animal derived ingredients:

Alfalfa Complex	B-Complex	Defend & Resist Complex
Energizing Soy Protein	Instant Protein Soy Mix	Fiber Plan® Daily Crunch
Fiber Plan® Daily Mix	Fiber Plan® Dietary Supplement	Garlic Complex
Gentle Sleep Complex	Herb-Lax® Tablets	Iron Plus C Complex
Liqui-Lea® Plus	Liver DTX Complex	Mental Acuity Plus
Stomach Soothing Complex	Performance® Sports Drink	Vita-C® 500 mg SR
Stress Relief Complex	Zinc Complex	Cholesterol Regulation Complex
Immune Building Complex		

Note: Shaklee products not on the list include either a gelatin or dairy derivative, or vitamin D from lambs' wool.
